Hi Mates, I have a question about the circuit of my ESP32 project. I'm going to run 12 pcs CPU-fans/caged-fans with a 12V DC power supply, and I would like to know if it's safe to power the ESP32 with the same power supply. I read that I can connect the 12V to pin Vin pin. My only concern is if it's safe for the board to be connected to the same power supply as the fans. ...
