Battery lifespan varies significantly depending on the type of battery you choose and how it is used. Lead-acid batteries typically last around 3 to 5 years with proper care.; Lithium-ion batteries, on the other hand, can last

12v7ah lithium battery pack

up to 10 years or more.; For example, if you're using a lead-acid battery in a security system with minimal cycling, it could last closer to 5 years.

12V 7ah/7.5Ah lithium-ion battery that is built with 3S BMS. The battery is designed to effectively charge and discharge, and the BMS includes multiple safety features, such as overcharge and over-discharge protection, to prevent ...
