

170W outdoor power supply

The systems come with all cabling required to connect the batteries to the controller and 20" outdoor rated cable to connect the solar panels to the controller. Features: Complete 170W ...

170w of power is nearly triple that of the OEM power supply that seemed to always get hot and make the computer run a bit slow at times. This provides enough power to run a Thinkcentre that has 3 monitors, an M.2 drive and SSD drive, with 16GB RAM, along with several USB devices that are powered by the USB port.

Tycon Power RPS12/24M-100-170Tycon Solar RemotePro 170W Solar 12/24V 25W 104Ah MPPT Controller Remote Power Solar System The Tycon Solar RPS12/24M-100-170 RemotePro 170W Series outdoor power system is designed for applications that require a primary off-grid power source to run various equipment. The vented weatherproof enclosure has generous space ...

That makes me wonder if it would be possible to take a power supply from that and splice on the tip from a W530 charger, since I'm guessing the X1 power supply is much smaller and lighter. ... - measure the power consumed at the wall with both the 170w and 90w charger, with and without the mod. Need to find my kill-a-watt

170W outdoor power supply

In addition, those who bought Mini Dock Series 3 with 90W power supply, cannot use it with the 170W power supply as the connector does not match. Powering w520 in the dock with a 135W adapter would work perfectly. 2. Why would not they allow topping up the battery of a 90W adapter when the computer is ON? I can see in the Power Manager that ...

 ?? ? ...

Now the point is: One day I was lazy (the 170W power supply was just in reach) and used the 170W power supply to power the docking station (which in turn powers the ThinkPad using the same connector, i.e. not Thunderbolt (as that is limited to about 100W for ThinkPads, it seems)). Even though the laptop was more or less idle (and thus expected ...
