

24 Negative Inverter 6800W

What is a CoNEXT XW+ 6848 na inverter/charger?

The Conext(TM) XW+6848 NA inverter/charger is an adaptable pure sine wave, 60 Hz single-phase, split-phase or three-phase inverter/charger system. It has the capability of up to 6,800 watts of reliable continuous output power. The inverter has powerful grid-tie functionality and dual AC power inputs.

What is a CoNEXT XW+ na inverter?

The Conext XW+NA inverter line is an equivalent to Xantrex XW inverter/chargers in North America. A complete Conext power system can feature solar charge controllers, monitoring, and automated generator control modules which enable further adaptability.

What voltage does CoNEXT XW 6848 take?

Conext XW 6848 by Schneider Electric is a hybrid Inverter with built-in charger. It will also accept 40V DC to 64V DC from a solar array for charging batteries with the MPPT-60-150 or MPPT-80-600 charge controller. It accepts 120VAC and 240VAC for the charging circuit. It is typically wall mounted.

What voltage does xw6848 take?

It will also accept 40V DC to 64V DC from a solar array for charging batteries with the MPPT-60-150 or MPPT-80-600 charge controller. It accepts 120VAC and 240VAC for the charging circuit. It is typically wall mounted. The XW6848 includes a battery temperature sensor for temperature compensation.

The Conext(TM) XW+ 6848 NA inverter/charger is an adaptable pure sine wave, 60 Hz single-phase, split-phase or three-phase inverter/charger system. It has the capability of up to 6,800 watts of reliable continuous output power. The ...
