

2u uninterruptible power supply

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS), with a 1kVA/600W capacity and line interactive design, provides battery backup for computers, servers, and office networks. It has a 220V/120V AC output voltage and is brand new, high quality, and inexpensive.

What is a 2U power supply?

Sure Star Computer Co. is a dual redundant power supply manufacturer. The 2U power supply offers your server and workstation zero downtime and load sharing function.

What is a military field grade uninterruptible power supply?

SynQor's Military Field-Grade Uninterruptible Power Supply units are designed for the extreme environmental and demanding electrical conditions of Military/Aerospace applications. SynQor's UPS incorporates field proven high efficiency designs and rugged packaging technologies.

What is a Smart-UPS smc1500-2uc?

Protect your servers, switches, routers and networking devices with the Smart-UPS SMC1500-2UC with APC SmartConnect, the first cloud-enabled UPS for distributed IT. The SMC1500-2UC UPS provides backup battery power in the event of a power outage, while safeguarding your equipment from harmful power conditions, spikes and surges.

Will an ups revert to power if a power outage occurs?

Yes, when adequate power is restored to the UPS and is within the operating voltage range of the UPS, it will revert to passing utility power to connected electronics. Will this UPS provide continuous power in the case of a power outage?

What is a synqor ups?

SynQor's UPS incorporates field proven high efficiency designs and rugged packaging technologies. This UPS will accept a wide range of input voltage and frequency values while delivering a well-conditioned AC output to the load. Up to three units can be combined to provide higher power, higher voltage and/or multiple output phases.
