This power supply is of industrial design, it is covered with a metal frame with IP20 protection, it has a standard terminal block with screws for connecting the input mains voltage including a ground wire and three pairs of DC output wires. The power supply has short-circuit protection, over-voltage protection and over-current protection.

DC power supplies. DWE supplies 60V power supplies in various capacities. The power supplies have a high efficiency and meet high quality standards. All our 60V power supplies are short-circuit proof, equipped with temperature protection and offer a stabilised output voltage. This allows you to use the power supplies in different situations.

The Tekneka 2060-10A is a linear programmable DC power supply that has an output power of 300W, voltage of 60V, and current of 10A. The front panel output terminal's multi-range capability allows for flexible and efficient voltage and current adjusting within the rated power range. The 2060-10A offers efficient and dependable power for trouble-free operation.
