In fact, most grid-tied inverters are designed for outdoor use, although most off-grid inverters are not weatherproof and are generally mounted indoors, close to the battery bank. As a rule, inverters designed for outdoor use may be installed either outdoors or indoors, however indoor inverters can only be installed indoors.

Portable generators will typically cost less than an inverter generator. Electronic Safety: The clean, stable power from inverter generator models makes them safe for use on sensitive electronics like phones and computers. Inverter generators possess less risk of overload with these devices than other types.
