DSPM, and its skilled and dedicated employees, are committed to providing the highest quality products utilizing state-of-the-art manufacturing processes and patented technologies. More importantly, DSPM constantly pursues innovation through an aggressive and ongoing research and development program insuring its leadership in Power Conversion ...

Location (Headquarters): Shenzhen, China Year Established: 2013. Primroot is a leading-edge professional solar inverter manufacturer based in the high-tech hub of Shenzhen, China. Fueled by the creative spirit and expertise of our ...

These use an inverter and are the most expensive type of Microinverter. These inverters work by changing one or two different currents from the battery to DC current, which is the standard for solar inverters. The drawback to these is that they take longer to charge and discharging them will lead to power drop-outs.
