Who is AC Barbados?

Design,fabrication and installation of concealed &exposed ducting AC Barbados was initially founded as Industrial Electronics Ltd. as an electrical engineering consultancy. Over the years,our focus shifted from engineering to air conditioning contractor. In 2020,we opened AC Barbados as a one-stop air conditioner retailerin Barbados.

Does Barbados use solar panels?

Solar panels are seen more and more frequently across Barbados. Similar to the ubiquitous solar water heater on Barbadian rooftops,the Government of Barbados is fully committed to the idea of renewable energy and solar PV,thereby preparing the country for even more substantial growth in this sector.

Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a ... Continue reading ->

What is the installed solar PV capacity in Barbados?

The total installed solar PV capacity in Barbados is about 22MW(12MW RER +10MW utility).

Deye"s innovative solar air conditioner series represents a breakthrough in sustainable cooling technology, combining eco-friendly operation with powerful performance. Our solar air conditioners are designed to significantly reduce ...

This piece will review the need for solar-powered air conditioning, how solar ACs work, and how much you can expect to save on utilities. The benefits of solar-powered air conditioning. According to the U.S. Department of Energy, three-quarters of American homes have air conditioners. The energy used by power plants to support that many air ...

EG4 Solar Mini-Split AC - Energy-Efficient Heating & Cooling Mini Split Unit with Solar Power. The EG4 Solar Mini-Split AC is a cutting-edge ductless mini split system designed to provide efficient climate control while reducing energy costs. This ductless mini split air conditioner can plug directly into solar panels, drawing DC power during the day and automatically switching to ...
