

Brand new inverter for sale in Krakow Poland

Which solar inverters do you offer?

Our carefully selected inverters convert the direct current produced by the solar modules into alternating current. We offer grid inverters from proven manufacturers such as Delta, Fronius, Huawei, Kostal, LG ESS, SMA and Solar Edge.

Who makes currentlu solar inverters?

Ginlong Technologies was established in 2005, and currentlu is one of the oldest and largest manufacturers of solar inverters. Presented under the Solis brand, the company's product line uses innovative string inverter technology to deliver first-class reliability, validated under the most stringent international certifications.

What is a photovoltaic inverter?

An inverter is a key component of a PV system. It converts direct current (generated by photovoltaic panels) into alternating current of 230 V and 50 Hz frequency, which can be used for current needs. The photovoltaic inverter also monitors the operation of the entire photovoltaic system and synchronizes it with the power grid.

What types of photovoltaic inverters are available?

We offer a wide range of inverters with high efficiency and lightweight design. Our offer includes 3-phase inverters, as well as 3-phase 5G inverters. How to choose a photovoltaic inverter?

What are the different types of inverter power?

Among them, PV grid-connected inverter power range from 1.5-110kW, Hybrid inverter 3kW-50kW, and microinverter 300W-2000W. As a technology-oriented company, Deye has always been committing to research and develop new cutting-edge technologies to provide efficiency and reliable products.

How to choose the best inverter?

To enjoy the high efficiency of the inverter for as long as possible, you should pay attention to such factors as: IP protection class, which determines the mechanical strength of the inverter and its resistance to the penetration of foreign bodies, dust and water. The minimum IP value should be 65;
