What mega projects are being implemented in Djibouti?

Djibouti is implementing several major projects, including an LNG terminal, a business zone, ship repair yards, a crude oil terminal, an international airport, and railway lines connecting Tadjourah, Mekele, and Addis Abeba with the port.

What software does the port of Djibouti use?

The port of Djibouti has invested in state of art softwares such as Navis N4 as a terminal operations system, Maximo for maintenance management, Sage for finance and other softwares for operations and human resources. There are interfaces with customs, forwarders and shipping lines.

What is being constructed in Djibouti's business zone?

An LNG terminal, a business zone, ship repair yards, a crude oil terminal, an international airport, and railway lines connecting Tadjourah, Mekele, and Addis Abeba with the port are other mega projects being implemented in Djibouti.

How did Djibouti become a port?

The port evolved out of Ethiopia's search for a maritime outlet to its railway line, and Djibouti's coastline provided both easy access and sheltered anchorage. Work on the railway began in 1897, as did the initial construction of the port. Once the line was completed, in 1917, the port grew rapidly.
