

Dublin's new solar power system

How many solar panels will be installed at Dublin Airport?

Irish renewables developer Enerpower has started building a 9 MW solar array at Dublin Airport. The project is expected to generate more than 10% of the airport's electricity needs once it is completed. Enerpower has started installing 11,000 solar panels at Dublin Airport in Ireland, with 15,000 to be deployed by September 2024.

Does Dublin Airport have a solar farm?

Picture: Conor McCabe Photography. Dublin Airport officially opened its solar farm on Monday as it commits to 20 per cent of the airport's annual electricity needs coming from renewable solar energy by 2030. Some 15,000 solar panels have been installed on the 28-acre site, which is located close to the south runway and visible from the R102.

Will a 9 MW solar array power Dublin Airport?

Irish renewables developer Enerpower has started building a 9 MW solar array at Dublin Airport. The project is expected to generate more than 10% of the airport's electricity needs once it is completed.

Why should Dublin Airport invest in solar energy?

He added: "Investing in renewable solar energy and exploring the potential of geothermal sets Dublin Airport up for the future and helps the airport meet its commitment to reducing its emissions by 51 per cent by 2030. I'm delighted to be here with the DAA on this really impressive solar farm just short of 30 acres and 15,000 solar panels.

Why does Ireland need solar energy?

"Solar energy is an essential component for enabling the Irish power system to run entirely on green energy. Ireland has seen several amber alerts on warm summer days with low wind speeds, the cost of electricity is too high due to over-reliance on fossil fuel, and the carbon intensity of Ireland's electricity is among the highest in Europe.

Why is on-site power important for Dublin Airport?

DAA Chief Commercial and Development Officer Vincent Harrison said investing in on-site power is critical to ensuring infrastructure is resilient. Chief executive of the DAA, formerly called Dublin Airport Authority, Kenny Jacobs (left) with Transport and Environment Minister Darragh O'Brien at the official opening of Dublin Airport's solar farm.
