What is a clodesun integrated solar street light?

Clodesun launched a foldable design all in one solar street light in 2021, which are designed by our German team for more than 1 year and tested for 2 years. This light stands out among various integrated solar street lights. It is widely praised by customers all over the world... Integrated solar street light is taking the world by storm.

How do solar street lights work?

Solar street lights work by absorbing solar energy via solar panels during the day and storing it in a LiFePo 4 or solar AGM battery. At night, this stored energy is used to power the street lights. Our microprocessor controls switch the lighting on automatically at dusk and off again at dawn. Basically, you can choose between 4 control principles:
