As the installation on a 4.85 kW solar system was winding down, the homeowner had one last request: install one more kilowatt of power. Never one to say no, Sersolar jumped at the challenge and with a little creativity, easily expanded the system to meet the customer's request. The original installation called for a 4.86 kW ballasted rooftop system with 18 ...

Things to consider about the Enphase 5P. The downside is, of course, lower capacity means less availability for power if the grid goes down. But, if you live in an area with a relatively stable grid that isn't prone to long-duration outages, the 5P might just get the job done.

Solar power can bring significant changes in consumption costs. The savings can benefit countries like the Philippines, whose electricity prices are often unmanageable for consumers. A recent study discovered that

Guatemala City Solar Lights Recommended for Home Use

solar had enabled the nation to save \$78 million in fossil fuel costs, roughly PHP4.42 billion, despite comprising only 1.7% of power generation.
