A UPS, or a uninterruptible power supply, is a device used to backup a power supply to prevent devices and systems from power supply problems, such as a power failure or lightning strikes. A UPS can help prevent power supply problems that can often occur

In the Ultron UPS family, three-phase online UPSs have power ratings of up to 4000 kVA, perfect for data centers, industrial facilities, and more. Three-Phase online modular uninterruptible power supply systems from the Modulon UPS family offer scalability and redundancy in a single frame, with up to 600 kVA. Delta's UPSs are some of the most ...

UPS - Uninterruptible Power Supplies are available at Mouser Electronics from industry leading manufacturers. Mouser is an authorized distributor for many UPS uninterruptible power supply manufacturers including Eaton, Phoenix Contact, Schneider Electric, SolaHD, Tripp-Lite & more.

The Eaton 93E UPS delivers superior power protection for ever-expanding loads in today's space constrained data centre's. Facilitating a lower total cost of ownership (TCO) through a combination of energy efficiency, high reliability and a compact footprint the 93E is an ideal solution for small to medium sized data Centre's and other applications desiring highly ...

Protect sensitive electronics and equipment during power surges and blackouts with a UPS System or Uninterruptible Power Supply from our extensive UPS lineup of standby, line-interactive, and double-conversion models. Battery backup capacities range from 350 VA to 50,000 VA. Key features include sine wave output, energy-saving Green Power ...

The full form of UPS is Uninterruptible Power Supply or Source. It is an electronic device that can store power for a short time and provide an uninterrupted power supply to computers and other devices at any moment. Like an IPS, it can store electrical energy in a battery and convert DC power to AC power.
