Can a palm tree solar street light rise up and fold?

The solar panel of the palm tree solar street light could rise up and fold, which is better for the solar panel face to the sun's direction on both sides of the road.

How do you fold a helix?

Designed with Origami to fold flat. Modern and sleek the Helix creates luminous light with a uniform, frosted glow. Twist and pull the two sides to open into a cube and twist and push together to fold flat. The twist keeps the corners straight in the collapsed state so the material remembers to be a cube when unfolded. SETTINGS:
