The AIMS Power 5000 Watt inverter with 240 volts AC output is a great choice for an off grid well pump that requires 240VAC to operate. However, keep in mind that this inverter is not a "split phase" 240VAC; you will not be able to pull one leg off to create 120VAC. The 240VAC supply is accomplished through one of the two AC receptacles, or the direct connect terminal block.
