Does Thailand have a solar market?

Thailand's solar market prospects are further vivified by its broad port and logistical infrastructures. The Bangkok port alone can handle up to 1.5 million exports and imports annually. There is no limit to lucrative opportunities in this blossoming market. What does this mean for you as a solar installer or a professional in the solar industry?

Where are solar inverters located?

Microinverters are located on the roof near the solar panels, due to which these inverters are more efficient than string inverters when it comes to converting energy. Solar systems with microinverters can still generate electricity, even if one or two panels do not perform properly.

I recently sent a hearing aid with a 1.20 watt battery inside the hearing back to the U.S.. IT bounced back. I then removed the battery and resent it back to U.S. for repair. The hearing aid is now repaired and configured with the new battery installed. If the battery is removed i am afraid it will loose its adjustments.
