What is Oman Solar?

Oman Solar is a company that uses the latest technology to convert natural resources into electrical power through solar photovoltaic energy. This solution is reliable and suitable for remote applications in the region due to the nearly year-round availability of sunlight. At Oman Solar, we harness the power of the sun.

Why should you choose Oman solar?

At Oman Solar, we have latest technology by which we can use NATURAL RESOURCES and convert the NATURAL energy into POWER (ELECTRICAL ENERGY). The solar photovoltaic energy is a most viable solution for reliable and remote application in the region because of the availability of the sun for almost 365 days in the year.

Who owns the first utility scale solar plant in Oman?

The first utility scale solar plant in Oman, Amin IPP, is owned by Amin Renewable Energy Company. It has a total capacity of 125 MW and started commercial operation in Q2 2020.

Who is OSS solar?

OSS is one of the oldest companies in the entire GCC region; over the three decades, we have installed many successful solar power systems at critical, remote, and inaccessible locations and delivered power and energy to homes and business houses across the Oman, UAE, MENA and SEA region.

Where is solar energy available?

Life on our planet would be unthinkable without that large power station known as the sun. Solar energy is available almost anywhere. Where there is sunlight there is Electricity. What options do I have to buy the solar system? This section is dedicated for prospective solar electrification system customer.

The two plants, which are the largest solar power plants in the Sultanate of Oman, use more than two million bifacial photovoltaic solar panels to achieve maximum productivity, and nearly 1,800 automated dry-cleaning robots. ... Manah 1 plant was implemented in cooperation with Wadi Noor Solar Power Company, the French company EDF Renewables ...
