Outdoor power ac inverter

Of course, there are always trade-offs with budget products and the Oupes is no exception. Part of the reason the Mega 1 didn't score as high for efficiency as other options I looked at is because the combined inverter and AC port power use is unusually high. At 50 watts, it's about three times what other power stations are using.

It with powerful protection function, the protection for short circuit, over load, over temperature is more safe and reliable. It's service life can up to 15 years or more. *Two kinds of start mode: Reduction Voltage Start and ...
