Step 4. Connect and Supply Power to Outdoor Dome PoE Cameras. After mounting outdoor PoE dome-style cameras, the next step is to connect the cameras to electricity source and check if they receive stable power supply. If your router supports PoE feature, you need only to connect your cameras to the router through Ethernet cables.

## Outdoor power dome

There's a real-life example in Pensacola Beach, Florida. A dome home there, called Dome of a Home, made of concrete, survived three major hurricanes--Hurricane Ivan in 2004, and Hurricanes Dennis and Katrina in 2005. While many nearby traditional homes were badly damaged or even destroyed, the dome stayed standing and safe.
