

# Outdoor power supply for camping in Casablanca Morocco

What are the different types of power plugs in Morocco?

In Morocco, there are two main types of power plugs and outlets: Type C and Type E. Type C: Type C plugs have two round prongs on either side of the plug, commonly known as Euro plugs. Mostly used in Europe, South America, and Africa. Type C outlets can be fit with either Type E or Type F plugs.

What do electrical outlets in Morocco look like?

When traveling to Morocco, make sure to bring the appropriate travel plug adapter that fits the local sockets. In Morocco, types C and E are the official standards. Since type F plugs are identical to type E plugs, they can also be used with type E sockets.

Do I need a travel adapter for Morocco?

If it is not, you will need to purchase a travel adapter for Morocco. There are many different types of adapters available on Amazon that can be used in Morocco. You can purchase a universal adapter that will fit most outlets in the world, or you can purchase a specific adapter for Morocco. -> Find travel adapters on Amazon.

Does Morocco use USB adapters?

This adapter is equipped with multiple USB ports and a standard socket, allowing you to charge multiple devices simultaneously. With a comprehensive selection of plugs covering over 150 countries, including Morocco, you can stay connected and powered up no matter where your adventures take you.

What type of electronic devices are used in Morocco?

Morocco uses type C plugs and sockets, with the standard voltage of 220 volts and a frequency of 50 Hz. This means that most electronic devices designed for use in Europe will work in Morocco without any modifications.

What is the mains voltage in Morocco?

Morocco has standardized on 220 V as the mains voltage, just like almost all other former French colonies. In Morocco, types C and E are the official standards.
