What is Outbound Power?

Outbound Power is the premier portable power resource for outdoor adventurers. We provide generators, solar power stations and solar panels, inverters, lithium batteries, and more to #PowerYourAdventure.

Are portable power stations worth it?

Portable power stations are more powerful and cost effective than ever before. And, thanks to advances in lithium-ion battery technology, they're also lighter and more compact. Whether you've been dreaming of van life or are building out your emergency kit in advance of that next blackout, there is a power station that will meet your needs.

Can you use all USB ports on a power station?

In my experience, it's very rare that you will use all the available USB or AC ports, as these power stations are really only designed to power one large appliance (like a refrigerator) or a handful of smaller devices like a phone or a laptop.

What are the best portable power stations?

To help you decide, I tested the efficiency, in a variety of scenarios, of the best portable power stations from Jackery, Oupes, EcoFlow, Anker, Goal Zero, Greccell, Bluetti, Dakota Lithium, Lion Energy, Vtoman, and Ugreen. What to Know Before Purchasing a Portable Power Station

Are LiFePO4 power stations portable?

With the new LiFePO4 battery chemistry, I personally found that units in the 1000 Wh range were fairly portable, while those that were closer to 1500 Wh were more of a chore to pick up and move around. Power stations that stood out as especially difficult or easy to move around have been noted in the individual reviews.
