How do you use a P1 microphone?

Charge it up with any 5V USB power source, run it in-line between your microphone and your mixer or recording unit, and enjoy clean power and hum-free audio for any performance or recording--absolutely anywhere! P1 is small and light enough that you can keep it in your gig bag and take it everywhere.

How long can a P1 power a condenser mic?

P1 is small and light enough that you can keep it in your gig bag and take it everywhere. Although it can operate while plugged into the wall, when fully charged it can power any high-current condenser mic for up to 40 hours! Operating without power cords also means you'll never introduce ground loops into your signal.
