month.

You can use solar power instead of candles or kerosene lamps to light your home. Solar lights have a lower total cost of ownership than kerosene lamps because solar energy is free and can be used repeatedly. Kerosene lamps pollute the air, but solar lamps don't do that. Solar lights cost more upfront and only work when the weather is clear.

The 1 kW solar system is capable of generating 4-5 units during the day using the sun's power. 1 kW solar system is designed to give power supply for 8-10 hours to 3-4 BHK homes in India having severe power cuts. It consists ...

Shifting to eco-friendly alternatives in place of everyday items is an easy and simple way to practice a more sustainable lifestyle.
