The PV Module Price Index tracks wholesale pricing and supply of crystalline-silicon modules that have fallen out of traditional distribution channels, and as a result are listed for resale on the EnergyBin exchange.. For the fourth year, the price index findings shed light on the importance of a robust and sustainable secondary solar market to extend the life of PV assets, ...

As a matter of fact, various studies have evaluated the PV potential by considering the limits set for implementing such a system. For instance, Sun et al. [13] combined a high-resolution solar map with restriction requirements to estimate the Fujian province's PV potential. The results showed that the studied area proved to be a good choice for PV rooftop ...
