

# Solar Energy System in Johannesburg South Africa

Is Solar worth it in South Africa?

Solar is worth it in South Africa, especially with the country's inconsistent power supply. If you consider Eskom's electricity costs, a 5kW system could save you over R20 000 a year. Your solar energy system will pay for itself in just 3 - 5 years. What solar system do I need for my house?

Is South Africa a good place for solar power?

Solar power is also reliable and consistent, and sunny South Africa offers an ideal solar environment. Most areas in the country average more than 2 500 hours of sunshine per year, making South Africa the world's third best solar location after the Sahara and Queensland in Australia. I am writing to recommend the services of Sunworx.
