Where can I find a solar inverter?

If you have a small residential solar system or an expansive commercial solar project, SolarPath is here to help you find the inverter to get your system up and running. Additionally, we offer a variety of high-quality solar products, including solar panels, skylights, solar roof ventilation, solar water heaters.

What is a solar inverter?

SolaX. The inverter is the "brain" of your solar system. They convert Direct Current (DC) electricity produced by your solar panels into 240 volt Alternating Current (AC) electricity used in your home. Most inverters for residential solar systems are string inverters, and support 2 strings of solar panels.

My biggest gripe is trying to get parts for repairing solar inverters. I have had two mpp solar inverters for over 5 years. Made in China by the way as nearly every inverter now is made in China. What happened was the lcd display unit went really dim. Tried to get a new display board. Result no way was advised to ungrade unit.
