

# Solar lights for home use recommendation

Which solar lights are best for your outdoor space?

Luckily, we tried and tested a wide range of solar lights to find the best one for every outdoor space and how well they cope with different weather conditions for longevity. If you're after string lights, Brightech's Ambience Pro LED Outdoor String Lights is our favorite pick.

Are solar lights good for outdoor use?

Solar lights are overwhelmingly powered by LEDs because they consume significantly less energy than traditional incandescent or fluorescent bulbs, allowing for smaller batteries and longer operational times. Because they are designed for outdoor use, most solar-powered outdoor lights offer decent water and weather resistance.

How much sunlight does a solar panel need?

Generally, eight-10 hours of direct sunlight per day, will produce around 15 hours of illumination. But this will depend on location, type of light and exposure it gets. It's best to place your lights in an area that isn't shaded by trees, walls or even certain roofs, as these can obstruct the amount of light the solar panels receive.

What are the best solar lights?

We chose the AloftSun Solar Motion Sensor Outdoor Lights as the overall best solar lights for their durability, water resistance, and motion-sensing capabilities. If you're looking for a set of string lights, we loved the Brightech Ambience Pro Solar Powered Outdoor String Lights, because they held up to water and freezing temperatures.

What should you consider if you want decorative outdoor solar lights?

If you're looking for lighting to hang around a gazebo or line a patio, consider more decorative models, such as the Aityvert torch lights or the Brightech string lights. Here are three factors to consider when buying landscape lighting. Before purchasing outdoor solar lights, consider your personal lighting needs.

How do I choose the best outdoor lighting?

For optimal lighting, consider using a mix of outdoor lights around your property, including ground lights, accent lights just above eye level, and fixtures installed on the roof or above your driveway. For walkways, pathway lights on stakes are a popular choice.
