

St John s Battery Storage Box

Why did Saint John energy add a battery storage site at Burchill?

Saint John Energy decided to add a battery storage site at Burchill partly due to the success the company has seen with their first Megapack project. Installed in 2020, the company was expecting to see large savings, and the Megapacks delivered just that, with Saint John Energy saving over \$109,000 in the first year of operation.

How much energy can Saint John energy store?

"We can store upwards of 12 megawatt hours, which is about equivalent to 3,100 homes for about two hours," Andrew Ahearn, engineering manager with Saint John Energy, said in a recent interview. The trio of batteries, which arrived on Sept. 8, are not the utility's first foray into energy storage.

How many Tesla batteries does Saint John energy have?

The electric utility is currently installing three Tesla Megapack batteries at its Somerset Street substation. "We can store upwards of 12 megawatt hours, which is about equivalent to 3,100 homes for about two hours," Andrew Ahearn, engineering manager with Saint John Energy, said in a recent interview.

Where is St John's battery located?

The community is built at the base of Signal Hill, the higher elevations of which are a part of the Signal Hill National Historic Site, and a very prominent landmark for St. John's. The Battery, as are all parts of the City, is governed by several sets of codes and regulations.
