What are outdoor solar powered LED sign lights?

Outdoor solar powered LED sign lights are the perfect solution for illuminating signs in remote locations, or areas where it's too costly to access mains electric power.

What is a commercial grade solar sign light system?

This commercial grade, solar sign light system includes three or four 39" long, low profile, LED linear light bars. Additional light bars can be added for a customized system. Multi-purpose usage for internal or external sign lighting. Supplied as a complete system for lots of different sign light a..

Can solar light a sign?

There are instances where you cannot illuminate a sign with traditional power. This is because of a lack of infrastructure at the sign location, or it may be too costly to trench out the electrical lines. Either way, solar can play a big part in illuminating the sign structure. Why would you want to use a solar lighting solution for your next sign?
