

What is a supercapacitor?

A supercapacitor is a double-layer capacitor that has very high capacitance but low voltage limits. Supercapacitors store more energy than electrolytic capacitors and they are rated in farads (F). Supercapacitors store electrical energy at an electrode-electrolyte interface.

Who are the best capacitor companies & distributors in South Africa?

We have compiled the best capacitor companies and distributors in South Africa list for you to pick as below: Established in 2005, ID Capacitors has been the capacitor supplier of choice to the industry throughout Southern Africa. As a specialised capacitor importer and distributor, our supplier network stretches across the globe.

Who makes Supertech capacitors?

In 2013, Supertech cooperated with UK-based DNM to develop and produce its patented wide-frequency capacitors for advanced audio amplifiers, medical instruments, and power supplies.

Who makes high energy capacitors?

High Energy is the foremost manufacturer of high voltage and high frequency capacitors.

Do supercapacitors store more energy than electrolytic capacitors?

Supercapacitors store more energy than electrolytic capacitors and they are rated in farads (F). Supercapacitors store electrical energy at an electrode-electrolyte interface. They consist of two metal plates, which only are coated with a porous material known as activated carbon. As a result, they have a bigger area for storing much more charge.

Jinzhong Kaimei Power Co., Ltd., a professional China super capacitor supplier, is mainly engaged in the development, production and sales of commercial supercapacitors. Customize ultra capacitor with special parameters is available. ISO14001; SO/TS 16949; SGS and ROHS/REACH. RFQ today! +86-18640666860
