

The impact of anti-dumping on photovoltaic glass

Why is anti-dumping duty on solar glass a problem?

Developers face additional costs due to duties on raw materials, along with ambiguity over regulatory approval for claims under "change in law." Anti-dumping duty on solar glass imports from China and Vietnam worries developers, impacting project costs and viability.

Why are anti-dumping duties imposed on Chinese photovoltaic solar glass enterprises?

The imposition of anti-dumping duties on Chinese photovoltaic solar glass enterprises exported to the Indian market has had a certain impact, increasing the cost of sales and competitive pressure on Chinese enterprises in the Indian market. At the same time, this also reflects India's trade protectionist tendency in the photovoltaic industry.

Should India impose anti-dumping duty on solar glass imports from China and Vietnam?

India's Directorate General of Trade Remedies (DGTR) has recommended an anti-dumping duty on solar glass imports from China and Vietnam after its investigation concluded that imports from these countries are undercutting the prices of the domestic industry.

How will anti-dumping duty affect the cost of a solar module?

According to SAMA's calculation the impact of this Anti-Dumping Duty based on the reference price for imports from China, on the cost of a solar module vis-à-vis the average landed import prices will be 48 paise per watt peak for a conventional module with back sheet and 63 paise per watt peak for a 2mm glass/glass module.

Will India impose an anti-dumping duty on solar panels?

India has imposed an anti-dumping duty on solar glass imports from China and Vietnam. While the intention was to protect domestic producers and support Indian manufacturing, developers worry this will escalate solar panel prices, impacting financial viability and project timelines.

Why do IPPs have to pay anti-dumping duty on solar glass?

In this case, IPPs may invoke this clause to recover the additional costs caused by the anti-dumping duty on solar glass, as it was an unforeseen regulatory change. This would allow them to pass on the increased costs to buyers or adjust tariffs, ensuring the financial viability of their solar power projects.

The Directorate General of Trade Remedies has initiated an anti-dumping investigation on imports of textured tempered coated and uncoated glass originating in or exported from China and Vietnam. This investigation stems from an application submitted by Borosil Renewables, alleging similarities between their domestically produced solar glass and ...

The impact of anti-dumping on photovoltaic glass

Directorate General of Trade Remedies (DGTR) has proposed anti-dumping duties on textured tempered glass imports from China and Vietnam, aiming to shield domestic manufacturers from price undercutting. Also known ...

New Delhi: The commerce ministry has recommended imposition of an anti-dumping duty of up to USD 677 per tonne on imports of a certain type of solar glass from China and Vietnam, with an aim to guard domestic producers. In its preliminary findings, the Directorate General of Trade Remedies (DGTR), a wing of the ministry, has concluded that "Textured ...

From pv magazine India. The Directorate General of Trade Remedies (DGTR), an entity under India's Ministry of Commerce and Industry, has terminated an anti-dumping investigation into solar cells ...

The return of antidumping measures for components sourced from Southeast Asia could have a significant impact on solar project development in the United States. Photo: Tobias Kleinlercher/Wikipedia Share

Anti-Dumping Duty serves as the reference or floor price below which the solar glass cannot be imported into India from China and not the additional duty imposed on chinese or vietnamese solar ...

India's Directorate General of Trade Remedies (DGTR) has recommended an anti-dumping duty on solar glass imports from China and Vietnam after its investigation concluded that imports from these countries are ...

India's DGTR has recommended antidumping duties on imports of textured tempered solar glass from China and Vietnam, as these imports significantly undercut domestic prices. The recommended duties would be the lesser of the dumping and injury margins, aimed at alleviating the impact on Indian manufacturers. The textured tempered glass in question, used ...

The commerce ministry has recommended imposition of an anti-dumping duty of up to \$677 per tonne on imports of a certain type of solar glass from China and Vietnam, with an ...

India's Ministry of Finance has imposed an anti-dumping duty on solar glass imports from China and Vietnam. The anti-dumping duties aim to protect the domestic solar glass industry from unfair pricing practices. The ...

The US switched its China and Taiwan anti-dumping duties to uniform tariffs on all imports of solar panels in January 2018. This research uses an Equilibrium Displacement Model (EDM) to determine the relative effects of these two tariffs on domestic consumer and producer welfare, employment, government revenue, and environmental costs.

We also estimate the effect from post-anti-dumping on the number of utility model patents in Models 5-3 and

The impact of anti-dumping on photovoltaic glass

5-4. The effect from post-anti-dumping leads to a significant decrease of 12 % (e -0.129 -1) in the number of utility model patents, while the result is not significant using the alternative control group sample.

Impact of Global Tariffs on Southeast Asian Economies. ... DGTR Recommends Anti-Dumping Duty on Solar Glass Imports from China and Vietnam. ... Textured tempered glass, used in solar photovoltaic panels and solar thermal applications, is at the center of the investigation. The product in question includes glass with a minimum of 90.5 percent ...

The European Commission has concluded that there are no compelling reasons to scrap definitive countervailing and anti-dumping measures on solar glass imports from China. Currently, the...

India's Directorate General of Trade Remedies (DGTR) has recommended the imposition of an anti-dumping duty on imports of textured tempered glass from China and Vietnam. The recommended quantum of duty ...

By analyzing the changes in the vertex-strength distribution and the changes in the total vertex strength of the PV sector, we found that with respect to the situation prior to the ...

The Indian authorities will introduce a 10% customs duty on solar glass imports from October. The government has also expanded the list of exempted equipment for solar cell and panel production to ...

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

Variable tariff on PV-rated glass from China. 2014. India. Import duty. 40% duty on solar modules, 25% duty on cells. 2022. ... Anti-dumping. PV modules and laminates from China. 2015. United States. ... and the long-term impact on the demand for solar PV and wind may be minimal. However, there is a risk of a prolonged period of high commodity ...

Developers have expressed concerns that the newly imposed anti-dumping duties on solar glass will increase the cost of solar panels, potentially making ongoing projects unviable. Independent Power Producers ...

India's Ministry of Finance has applied antidumping duties on solar glass imports from China in the range of \$673 to \$677 per metric ton and for imports from Vietnam at \$565 per metric ton.

The authority found that both domestic and imported glass are comparable in characteristics and substitutable, confirming that anti-dumping duties will not impact availability. In India, besides Borosil Renewables, Gobind Glass and Industries, Triveni Renewables, Vishakha Glass, and Gold Plus Float Glass are also in the manufacturing of solar ...

Anti-Dumping Investigation concerning imports of -SOLAR CELLS WHETHER OR NOT ASSEMBLED

The impact of anti-dumping on photovoltaic glass

INTO MODULES OR PANELS originating in or exported from China PR, Thailand and Vietnam; S.No. Timeline for completion of investigation Details Publish Date; 1: Initiation Notification: Download (918.24 KB)

According to SAMA's calculation the impact of this Anti-Dumping Duty based on the reference price for imports from China, on the cost of a solar module vis-à-vis the average landed import...

Furthermore, Zhejiang Hehe Photovoltaic Glass Technology Co., Ltd was applied a percentage 35.3%, while other unspecified glass producers will have to pay an anti-dumping duty of 67,1 %.

(3) In separate proceedings, the Commission also imposed anti-dumping duties ranging from 0,4 % to 36,1 % in May 2014 (3). In August 2015, following an absorption reinvestigation, the Commission amended the anti-dumping measures by Commission Implementing Regulation (EU) 2015/1394 (4). 1.2.

In 2014, based on the Anti-dumping Agreement of the World Trade Organization (WTO) [13], the EU and the United States imposed anti-dumping duties and anti-subsidy tariffs on PV manufacturers in China and anti-dumping duties on PV manufacturers in Taiwan the past, the subject of anti-dumping was mainly discussed from the perspective of protecting domestic ...

Solar Glass Anti-dumping: Policy measure to bring relief to domestic players who have suffered from cash flow challenges and reduced returns on capital due to dumped imports, say experts ... India aims to localize the entire photovoltaic value chain and the government's policies are moving in a sequential manner ... Determining the cost impact ...

Events 2, 4, 6, 8 and 9 represent the following occurrences: the U.S. ruled to levy an anti-dumping tax of 31.14-249.96%, which is a very high rate, on Chinese companies; the European Union confirmed that they would launch an anti-dumping investigation of imported Chinese solar cells and their components; the EU formalized their investigation ...

In its study, Prognos sets forth the effect that anti-dumping and / or countervailing duties would have on the demand for solar installations and, as a consequence, on ...

According to SAMA's calculation the impact of this Anti-Dumping Duty based on the reference price for imports from China, on the cost of a solar module vis-à-vis the average landed import ...

On 17 October 2024, Indian renewable energy and glass manufacturing company borosil renewables urged the Indian government to impose anti-dumping duties on Chinese ...
