

# Tirana tariffs on imported lithium battery packs

These follow the Biden administration's decision to increase tariffs on lithium batteries from China from 7.5% to 25% starting in January 2026. ... the U.S. had 60 GWh of lithium ion battery ...

Tariff Classification TCO Number TCO description Operative date Decision date; 8507.60.00: 1539880: ACCUMULATORS, having ALL of the following: (a) lithium-ion battery pack with lithium nickel manganese cobalt oxide cathode; (b) nominal voltage NOT less than 48 V; (c) capacity NOT less than 110 Ah; (d) discharge power NOT greater than 6 500 W; (e) safety AND control ...

You state that the battery packs are imported under SKU numbers 56626 908 097, 56626 908 098, and 56626 908 099. The battery packs consist of eight rechargeable lithium-ion batteries surrounded by an insulating plate and a shrink sleeve, ...

The Indian government is planning to impose tariffs on import of Lithium-ion cells to boost local production. It also plans to introduce incentives for domestic production, including 100% tax deduction on capital expenditure for the first year, easy financing options, giving companies infrastructure status, cash subsidies and waiving minimum alternative tax.

Trump's proposed tariffs, especially those imposed on Chinese imports, will have a significant impact on the cost of batteries. However, it doesn't spell the end of the growth of ...

Benefit of exemption under S. No. 512 of Notification No. 50/2017-Customs for parts/components imported for manufacturing Lithium Ion Batteries. The department denied... The appellant imported parts, components, and accessories at a concessional rate of customs duty under Notification No. 50/2017-Cus dated 30.06.2017, Entry No. 512, for...

China has a huge glut of lithium battery packs that it needs to dispose of and it will offer them in electric cars at rock bottom prices," said the delegate. ... A recent IMF paper shows that restriction on tariffs are just part of a larger picture where there has been a tit-for-tat escalation on subsidies. ... The EU imported around 440,000 ...

The products CBP analyzes in ruling N329847 (Jan. 10, 2023) are lithium-ion battery modules and battery packs that are used in various battery electric systems for electric vehicles. Each battery module's main components include: lithium-ion battery cells, a top and bottom housing, a cell holder and current collector, a module cold plate, and ...

Administrative Law Judges conduct the trial phase of Commission investigations under section 337 of the
