

Uninterruptible power supply 100 000

What is an uninterruptible power supply (UPS)?

An uninterruptible power supply (UPS), with a 1kVA/600W capacity and line interactive design, provides battery backup for computers, servers, and office networks. It has a 220V/120V AC output voltage and is brand new, high quality, and inexpensive.

How do I choose the best uninterruptible power supply?

When selecting an uninterruptible power supply (UPS), the power it should have is an important consideration, depending on its intended use. In addition to the bridging time, the minimum power is a crucial factor. The system must be able to bridge power disturbances until the emergency generator takes over.

What is a 600v/300 Watts line interactive UPS?

A 600VA/300 Watts line interactive UPS* is a cost-effective battery backup for loaded equipment like a PC. It features an input and output voltage of 220V or 120V AC for options, a compact size, LCD display, and strong overload protection. Its favorable price, high reliability, and great performance make it a popular choice.

Why should you buy a Fuji Electric UPS system?

Fuji Electric's high-efficiency UPS systems help to protect critical customer systems and data from power troubles while at the same time helping to improve the global environment by reducing CO2 emissions. Japan China Asia Icon means main region for sale. In case of other regions, please contact us.

What is a user-replaceable battery?

Provides EMI (electromagnetic interference) and RFI (radio frequency interference) suppression to protect against line noise that can damage your technology. User-replaceable batteries allow you to extend the life of your UPS if the batteries are depleted after the 2-year warranty (sold separately).
