The VFI-RT+ Uninterruptible Power Systems are the benchmark in power protection performance. True online double conversion technology provides the highest degrees of power protection making the UPS suitable for a wide ...

UPS efficiency is based on how much of the original incoming power is needed to operate the UPS. For example, an uninterruptible power supply with a 95% efficiency rating will have 95% of the original input powering the load and connected systems, with the remaining 5% energy "wasted" running the UPS.
