

Use an outdoor power bank to charge your phone when traveling

Should you use a portable power bank for on-the-go charging?

Instead, consider using a high-quality portable power bank for on-the-go charging that won't overheat your device while preventing long-term battery degradation at the same time. This Anker Portable Charger, for example, is a great option that holds up to 3.6 charges (depending on your phone brand and model) and is light enough to carry around.

How to charge your phone on a camping trip?

Honestly, apart from a decent portable power bank, this is the best way to charge your phone on a camping trip. Just keep your eyes open, talk to people, and don't be afraid to ask for a cheeky bit of power sometimes.

Can You charge a mobile phone using a power bank?

Some portable speakers and flashlights allow you to charge your phone off them via USB cable, essentially using them as a power bank. While this can be useful in an emergency, an actual power bank is a better option. Remember the days when mobile phones used to last three days on a charge? How come batteries these days aren't as good as that?

Can I use a power bank to charge my laptop?

No problem, just use your power bank. The Goal Zero Venture 75 19200mAh Outdoor Portable Charger is perfect for outdoor living because it can power almost all of your small electrical devices (including laptops) and can be recharged using solar panels.
