

Wellington Air Energy Storage Box Price

Where is the Wellington Battery energy storage system located?

The Wellington BESS will be located within the Central West Orana REZ. Image: Ampyr Australia. Renewable energy developer Ampyr Australia has secured Shell Energy Australia's remaining stake in the 1GWh Wellington battery energy storage system (BESS) in New South Wales.

What is the target capacity of the Wellington Bess?

The target capacity of the Wellington BESS is 500 MW /1,000 MWh, making it one of the largest battery storage projects in NSW. The Wellington BESS will connect to the adjacent TransGrid Wellington substation, adjacent to the Central West Orana Renewable Energy Zone (Central West Orana REZ).

What is the Wellington Bess?

The Wellington BESS will connect to the adjacent TransGrid Wellington substation, adjacent to the Central West Orana Renewable Energy Zone (Central West Orana REZ). It will complement nearby existing renewable energy generation assets as well as the proposed additional generation to be delivered as part of the Central West Orana REZ.

What's going on with TransGrid & Wellington Bess?

The two companies launched a joint venture in 2022 to develop the 1GWh Wellington BESS, which will connect to an existing substation of high-voltage transmission system operator and manager Transgrid at Wellington and be adjacent to Central-West Orana Renewable Energy Zone (REZ).

When will ampyr & shell energy build the Wellington Bess project?

The Wellington BESS project is being jointly developed by AMPYR and Shell Energy. Subject to securing all relevant approvals, authorisations and financing, construction is expected to commence in mid-2023. Once operational, Shell Energy will hold the rights to charge and dispatch energy from the Wellington BESS.

How many GW of energy storage will Australia have by 2030?

It is worth noting that Ampyr Australia is targeting an operational portfolio of 3GW of energy storage in the country by 2030. Its Singapore-headquartered parent company, Ampyr Energy, is developing around 12GW of projects globally.

Renewable energy developer Ampyr Australia has secured Shell Energy Australia's remaining stake in the 1GWh Wellington battery energy storage system (BESS) in New South ...

We are at the forefront of the global renewable energy storage industry, delivering customized Battery Energy Storage System (BESS) containers / enclosures to meet the growing demand for clean and efficient power solutions. Our versatile product portfolio includes three distinct types of BESS container solutions, each engineered to suit the diverse requirements of ...
