

What accessories do outdoor power supplies need

What power supply do I need for my camping equipment?

It is their site and their power supply after all. Normally the supply is 230V 50Hz single phase, much the same as you would find at home. Always make sure your camping equipment conforms to these standards, a label on the back or the bottom of your device will usually have this data.

Where can I find parts for my outdoor power equipment?

At OMB Warehouse, we strive to provide the greatest selection and quality of parts for your outdoor power equipment*. If you're looking for an engine mounting plate, specifically a 5" x 12" Flat, 11 Gauge Steel Engine Mounting Plate with slotted mounting holes, check out our huge catalog- we have what you need.

Are power points suitable for outdoor installation?

Power points meant for outdoor installation are designed to stand up to the rigours of the natural elements. Unlike indoor outlets, they are exposed to the elements 24/7 and are constructed using UV-stabilised materials to protect them from damage.

Do outdoor power points need GFCI outlets?

To sum it up, outdoor power points should be weather-resistant and tamper-resistant only then will they be able to withstand the harsh outdoor elements. For added safety, you must go for GFCI outlets because they turn off the power point before accidents can take place. This way, you won't have to worry about the safety of your family and property.

Can a power point be installed outside?

As a homeowner, you cannot install any standard power point outdoors and only weather-resistant power points should be installed in all residential properties. This is applicable to all outlets installed within a property, including those around patios, hot tubs, pools, and decks.

What is the difference between indoor and outdoor electrical outlets?

Basically, the difference between the 2 lies in the construction. Those installed indoors are made of standard materials, meaning they aren't waterproof. For this reason, indoor electrical outlets aren't meant for outdoor use. Power points meant for outdoor installation are designed to stand up to the rigours of the natural elements.

Tent: Available in a variety of sizes, a good rule of thumb is to aim for a tent that sleeps 1 or 2 people more than you need, for space for all your camping essentials!. Tent Pegs: Will keep your tent firmly rooted in the ground, making your tent more durable, strong, and able to withstand beach and coast winds.. Sleeping Bag: Offering the perfect night's sleep in the outdoors!
